

Are You Ready for Microsoft 365 Business Premium?

What is Microsoft 365 Business Premium?

This all-in-one, fully cloud-based subscription gives your team:

- **Email, Office applications, and Teams** for productivity
- **Advanced Security** to protect your people and data
- **Anywhere access** with cloud storage and device management
- **Server-Free options** that reduce overhead and eliminate aging hardware

Ready for a Serverless Future?

Moving to Microsoft 365 Business Premium is the first step toward a serverless environment.

Store files in OneDrive/SharePoint instead of file servers.

Increased security with built-in MFA and Windows Hello

Centralized management of users and devices

Use Teams for chat, meetings, and calls.

Begin leveraging other cloud-based applications instead of server-based

Key Questions to Ask:

1. Do we want to reduce reliance on physical servers & IT maintenance?
2. Are our employees working remotely or from multiple locations?
3. Is cybersecurity a growing concern for our business?
4. Could simpler tools for collaboration (Teams, OneDrive, SharePoint) improve productivity?
5. Are we spending more than we should on separate licenses, hardware, back-up/disaster recovery, and security tools?

NEXT STEPS

- **ASSESSMENT** - Review your current systems & cost with a dedicated Networks Plus consultant.
- **ROADMAP** - Identify what can move to the cloud today vs. later.
- **ADOPTION** - Train staff and roll out tools in phases.
- **GROWTH** - Use cloud-first tools to scale without extra hardware costs.
